

TECH FOR

ECO-FRIENDLY EVENTS

Sustainable Solutions...

GO MOBILE TO GO PAPERLESS

By using an app, you can go paperless at your event. Use the event app to project a clear map of the event location or display the scheduling.

GO ONLINE WITH REGISTRATIONS

Fast & efficient - with none of the hassle of printing & signing up on time. An accurate way of collecting meaningful data.

AR TECHNOLOGY

Product demonstrations and exhibition spaces transform with the use of AR technology. Say goodbye to heavy transportation emissions and embrace digital disruption.

NFC-TECH FOR BADGES

Not only are you saving on printing (and thus costs) - but NFC technology can link to your event app to help your attendees network & keep track of their experience - instantly sending information from strategically placed beacons around the event space.

... achieve business results
